

Halloween Treats - Lollipop ghosts, ghouls and monsters

by Tracey Marsden

Happy Handmade Halloween! These lollipop ghosts, ghouls and monsters will be a hit with the neighborhood trick or treaters. There are scary ghosts and cute ghosts, witches, Jack O'Lanterns...choose the level of spookiness you want to spread.

Skill level: Easy

Materials you'll need

- Tissue paper in white, black and orange. I recycle my tissue paper and then iron it on a warm setting (no steam) to bring it back to life.
- Lollipops such as Chupa-Chups or flat lollipops
- Stick glue
- Paper and a printer
- Scissors.

Instructions

Cut tissue paper into 15cm (6") pieces. I like to use 2 pieces for each lollipop.

Cut out the collars and faces from the printables pages.

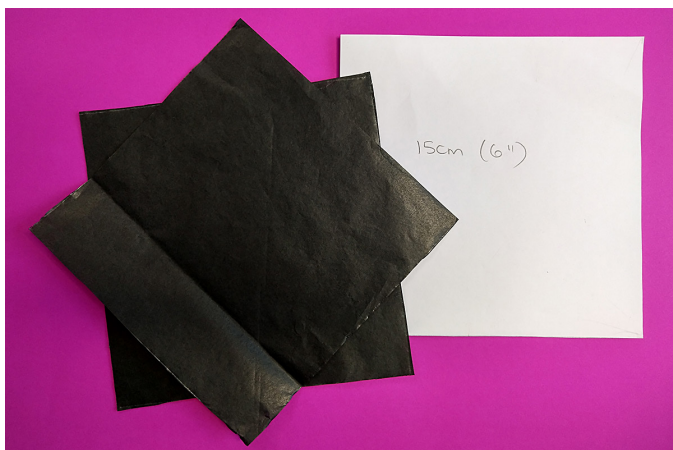

Place a lollipop into the centre of the tissue paper and pinch in sides. If your tissue paper has a shiny side, place that face up so the outside of your wrapper will be matte.

Decide on where your front or 'face' will be, usually the flattest side. Some of the designs are meant to be 'upside down' (eg the Jack O'Lanterns and the Frankenstein).

Glue a collar around the tissue paper 'neck' and line up edges as much as possible. You can trim it later once the glue has dried.

Glue a face and attach to the front, smoothing down creases as much as possible.

Let the glue dry and trim the collar as needed. Your lollipop ghost/ghoul/monster should be ready.
